

Dear patients of Atlantic Dental,

I sincerely hope that you are well during these unprecedented events of past several months. As our office is reopening I would like to inform you that we took multiple steps to ensure your health as well as safety of our staff. In addition to universal precaution standards that have been established prior to the COVID-19 outbreak we took additional measures to minimize possible transmission of the virus. Infection control has always been a top priority for our practice and you may have seen this during your visits to our office. Our office follows infection control recommendations made by the American Dental Association (ADA), the U.S. Centers for Disease Control and Prevention (CDC) and the Occupational Safety and Health Administration (OSHA). We follow the activities of these agencies so that we are up-to-date on any new rulings or guidance that may be issued. As we continue with hospital-level sterilization and disinfecting procedures we have implemented safety and social distancing protocols.

Clinical and administrative staff underwent additional training on infection control and new safety procedures.

We have adjusted scheduling format to minimize or eliminate completely waiting room time. That might mean that you're offered fewer options for scheduling your appointment.

Hand sanitizing station has been installed

There are no guarantees of what the future holds, but let me assure you that we are taking all possible measures to ensure a safe and comfortable environment for everyone involved.

Virtual check-in:

Upon arrival, please call us and wait in the car. We will notify you when operatory will be properly sterilized and staff is ready for you.

As you enter, please remove your gloves and dispose them in the marked receptacle. Hand sanitizing station is there for you.
